## Passionate about development technologies.

I have been developing applications for more than 10 years, I have a good knowledge of design patterns, clean architecture and testing. In the last 3 years I have been working on several projects with UNITY and C# obtaining excellent results.

I consider myself a person with a great capacity for work and responsibility, as well as being very versatile. I have a great technical knowledge and I learn very quickly any technology that is necessary for me. Always willing to help and learn from my colleagues, I have a good personal treatment.
